

Great Flow

A popular two-level plan with a modest footprint, the Halo is ideal for smaller sections.

All of your immediate needs are catered for downstairs with an open kitchen and living zone with main bedroom and ensuite on the ground floor. Two sunny, and toasty warm bedrooms with a view greet you upstairs along with a central bathroom.

The second level also boasts a well-sized study (or fourth bedroom) for working or upskilling from home, which we all can certainly appreciate more these days!
