Modern & accommodating

Special, spacious, and stately this fabulous home will comfortably accommodate larger families with ease.

A large, elongated kitchen with butler's pantry and two sunlit living areas, with one opening onto a large terrace will impress at your next soirée! The Horizon Glow is quite unique because it also provides a secluded ground floor sleeping space with private ensuite towards the rear of the home, while still providing accessible amenities for visiting guests.

It boasts four sizeable bedrooms, three bathrooms and four toilets in total with a convenient and quiet upstairs study area – plus a bonus separate laundry.
