Welcome, feel right at home.

Green Homes New Zealand is the only residential builder in New Zealand who is compliant with the International Standards Organisation for design and construction of energy efficient homes (ISO 50001). Our approach centres on sustainable living, healthier spaces, and quality construction - creating energy-efficient homes built for future generations.

What makes a Green Home unique?

Unlike traditional builds, our homes are designed to be:

- **Healthier:** Superior air quality and moisture control.
- **More Efficient:** Year-round energy savings.
- **Sustainable:** Built using environmentally-conscious practices, products and supply partners.

Our innovative designs and specifications go beyond the New Zealand Building Code, setting us apart from most other builders and giving you peace of mind.

Yes! We can modify all plans to suit your preferences, budget, section size and orientation.
